DETAILED ACTION

Allowable Subject Matter

1. The following is an examiner's statement of reasons for allowance:
2. The claims as amended successfully invoke 35 USC § 112 6th paragraph with the addition of the limitation "means for using electrostatic forces to move at least a portion of one of said first fluid and said second fluid from said lens chamber to said storage chamber" to claim 1. The corresponding structure described in the specification is the inclusion of three electrodes, as described by page 7 line 20 thru page 8 line 12, and page 8 lines 30-33 of the specification as filed on 09/27/2006. One electrode is a common electrode, provided near, but outside of, the lens chamber, one electrode is a transparent electrode which completely overlaps the lens face, and the final electrode is an electrode which overlaps most of the interior of the storage chamber. The electrodes are connected to a voltage source which can supply a voltage to the electrodes which will cause the fluids to be rearranged between discrete states as claimed, see page 9 lines 14-18 of the filed specification. Thus the claim requires this structure and equivalents thereof.
3. This arrangement of electrodes, and equivalents thereof, used in a discretely adjustable focusing lens with a first fluid having a first index of refraction and a second fluid having a second index of refraction that is different from the first index of refraction is neither described by nor rendered obvious by the prior art of record. The prior electrowetting lenses of record use two electrodes and do not discretely adjust the focusing lens, instead causing a continuous change in the lens shape or position. The

Examiner agrees with Applicant's arguments filed 04/06/2009 that piezoelectric actuators (being mechanically moving actuators) are significantly different than the electrostatic actuators as claimed, and thus are not equivalent structures.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
